

## Symarctic Solutions Ltd. Launches Symabook Application on Facebook® Platform

ROVANIEMI, FINLAND – MAY 11, 2010 – Symarctic Solutions Ltd. announced today the first official release of Symabook S60 application built on Facebook Platform. Symabook application enables Facebook users worldwide to connect with their friends everywhere with S60 mobile phones.

"Somebody has said that the happiness comes when we test our skills towards some meaningful purpose. We have not only tested our skills while developing the Symabook - we have proven them. We believe that this Symabook release will make you even happier than the team is now."

- Symabook team of Symarctic Solutions Ltd.

Syabook enables you to access your Facebook stream, interact with friends, and update your status from S60 mobile phones. Symabook features a user interface never seen before on S60 phones. It is sleek, novel and highly usable, functionality that is particularly beneficial when viewing photos.

This release of Symabook can be run on both S60 5th Edition and S60 3rd Edition mobile devices. Symabook is a native Symbian application that utilizes Symarctic Solutions Ltd's own UI engine. This UI engine is capable of running on other than S60 platforms as well such as Linux (Maemo), Android, iPhone and variety of Windows for example.

Symbian phones are the market leader in smartphone segment. There are more than 330 million shipped Symbian phones so far. Symbian phones constitute 50 % share of the smartphone markets. Mobile phones are inherently devices for communication between people. Therefore, there are many benefits when combining this huge Symbian mobile phone user base with Facebook's more than 400 million users. Facebook's users are already communicating and sharing information through the social graph, the network of connections and relationships between people. Symabook enables this flow of communication and sharing to continue when user is on the move.

Symarctic Solutions Ltd. is a private and innovative information technology service company. Symarctic Solutions Ltd. is focused on software development designed for mobile industry, incorporated with expert services, consulting and resourcing.

Syabook is available from Nokia Ovi Store <http://store.ovi.com/>
